

Product designation

Reflector P-Travel

Article no. 33.103.00

Product description

Because of its reduced dimensions the P-Travel reflector is, compared to the standard reflector P70, easy to stow away resp. for use on-location. Despite of its small "size" the "light quality" has been retained. For accessories there is also a barn door with two wings available.

Scope of delivery

Reflector P-Travel

Technical data

F-stop at 2 m (6 ½ ft.),

100 ISO, 3200 J

Light angle

Dimensions

Weight

90

approx. 55 °

195 x 90 mm / 7.6 x 3.5 inches

350 g / 0.7 lb

Accessories

Barn door with 2 wings to P-Travel (art. no. 33.243.00)

Compatibility

Monolights

Minipuls 40, 80, Minipuls C40, C80, C200

Minipuls D160

Minicom 40, 80, Minicom 40 RFS, 80 RFS

Lamps

Pulso F2, F4, Primo, Pulso G,

broncolor HMI F575

Application

P-Travel can be used in the studio as well as on-location. Because of the focusing ranges of the Pulso F2, F4 and broncolor HMI F575 lamp, the illumination can be adapted to the photographer's needs of slightly centre-focused to homogen. Similar to the P70 reflector, the correspondence of flash light and modelling light is very good.
