

Product designation

**Narrow angle reflector P50
for Pulso 8 lamp**

Article no. 33.105.00

Product description

Narrow angle reflector Pulso 8 and for Twin lamps as well as for broncolor HMI F575.800 with great light intensity. Comparable to P45 for Pulso F2 and F4.

Application

Direct lighting or for so-called bounce light technique (flash against white surfaces). This technique is frequently used for the lighting of large subjects with hazyness, such as photographing cars.

The great light energy required for this application is best achieved by light that is as narrowly bundled as possible. P50 displays a so-called peak curve, as it is known from most reflectors, which enhances the form of the hazyness.

Special features

Recommended for Twin and Pulso 8 lamps as well as for broncolor HMI F575.800.

May also be used on Pulso F2, F4 lamps, no barn doors.

Accessories

Honeycomb grid

Art. no. 33.205.00

Technical data

Dimensions Ø 345 x 394 mm / Ø 13.6 x 15.5 inches

Weight 1.1 kg / 2.4 lbs

F-stop	Pulso 8	6400 J	128.8
2 m / 100 ISO / 6400 J	Twin 2 x	3200 J	90.6

Light angle	Pulso 8	52°
	Twin	49°

Compatibility

Monolights	Minipuls C40, C80, C200, Minipuls 40,80 Minipuls D160 Minicom 40,80, Minicom 40 RFS, 80 RFS
